ABOUT ME

I graduated with a degree in Computer Science from the Indonesian Institute of Technology with a GPA of 3.54. During my studies, I actively developed my skills through various projects, including a web development project for the Department of Tourism as my final thesis. I possess skills in UI/UX design, data processing, and administrative and document management. Additionally, I am accustomed to working in a structured and detail-oriented manner, and I have strong problem-solving, time management, and communication skills. I am a disciplined, meticulous, and adaptable individual who can work both independently and as part of a team to make professional contributions in the workplace.

WORK EXPERIENCE

PT. Garuda Visi Nusantara
